

**NOVEMBER 6, 2018, TUESDAY – ELECTION DAY**

This is a notice to all residents eligible to vote in this election. Please check your sample ballot to identify your voting district location. Ocean County Board of Elections has adjusted some of the boundaries in various districts using a new GIS system. As Municipal Clerk, I have contacted their office and I am in discussions with them to resolve some issues that may have occurred due to this change. Any adjustments to be made will be for future elections, not our November 6<sup>th</sup> election.

If you feel you are not assigned to the correct election district to vote, please call my office with your name and address and I will look at the information to determine if it needs to be changed. At that time, I will discuss the same with the county office. PLEASE do not call my office if your district is changed but you are still voting at the same location. (we have multiple districts voting in the same location) 732-657-8121, ext. 3200

Should your district change cause a problem for you due to location, you may vote provisionally at your originally assigned district.

Thank you for your anticipated cooperation.

Sabina T. Skibo, RMC  
Municipal Clerk
