Re: Application # 2008-0208.001
Block 78, Lot 7
Manchester Township

Dear Mr. Daley:

We have reviewed the submitted restoration plan, received August 9, 2019, for the above referenced application involving a violation of the wetlands protection standards of the Pinelands Comprehensive Management Plan and the Manchester Township land use ordinance. The violation was noted in our July 9, 2019 letter to you, under the above application number (2008-0208.002). That application includes an application for a storage barn and to resolve a gravel surfacing violation on the above lot.

Please confirm in writing that the saplings will be replaced if they do not survive and that a reasonable effort will be made to water the saplings so that they establish.

The restoration plan submitted, which is a duplicate of the 2009 restoration plan with the exception of an October 2019 planting date, is acceptable to the Commission. Your violation file for this violation will be closed upon documentation of the completion of planting. Please submit additional information to address the gravel surfacing violation. If you have any questions, please contact me.

Sincerely,

Jean Montgomerie
Environmental Specialist
