

Manchester Senior Services can now provide a Zoom meeting with you to go over Medicare questions, Medicare Part D, Supplement & Advantage Plans, etc.!

Since we do not have the capability of having in person appointments, we hope Zoom brings a more personal approach to our client's needs and allows you to have a video conference with a SHIP counselor to review your plan options. In order to have a Zoom meeting you will need to have; internet access, email access, a device with a camera and a installed Zoom app.

We will also have phone conferences for those who do not have access to the internet, email and/or Zoom. With Open Enrollment starting Oct. 15, we encourage clients to call now for an appointment and let us know if you would like to have a video or phone conference at 732-849-8305.
